Experience

TechnoHacks Solutions Pvt. Ltd.

Feb 2026 – Jun 2026

Data Analytics Intern

- Worked with structured datasets and analytical workflows using Excel, Python, Power BI, and Tableau while following defined processes and quality standards.
- Performed data validation, quality checks, and troubleshooting to identify inconsistencies and resolve data-related issues.
- Prepared analytical reports and documented findings accurately to support timely reporting and effective communication of results.
- Analyzed recurring data issues and trends to identify patterns and support process improvement and reporting accuracy.

Education

Thakur Institute of Management Studies, Career Development & Research

Jul 2026

Master of Computer Applications (MCA)

CGPI: 8.04

L. S. Raheja College of Arts & Commerce

Mar 2024

B.Sc. Information Technology

CGPI: 7.28

Patuck Technical High School & Junior College

Mar 2021

HSC (Science)

Percentage: 73%

Technical Skills

AI Automation: Claude Code, OpenAI Codex, ChatGPT, Google Antigravity

Programming: JavaScript, Python

Frontend Development: HTML, CSS, React.js, Tailwind CSS

Backend Development: FastAPI, REST API

Databases: MySQL, MongoDB

Tools & Platforms: GitHub, VS Code, Google Colab, Vercel

Projects

ATS Resume Analyzer AI – Live Project

Mar 2026

Live Project | **Tech:** HTML, CSS, JavaScript, PDF.js

- Developed an AI-powered ATS Resume Analyzer that evaluates resumes against job descriptions using weighted scoring logic inspired by real ATS systems.
- Implemented PDF/DOCX/TXT resume parsing, keyword extraction, missing skill detection, ATS score calculation, and real-time resume feedback generation.
- Built dynamic job recommendation links for LinkedIn, Naukri, Internshala, and Google Jobs based on detected roles and locations.
- Designed a responsive drag-and-drop interface with client-side processing to ensure data privacy and seamless cross-device usability.

Employee Management Portal – Full Stack Project

Nov 2025

GitHub | **Tech:** React, Tailwind CSS, Python, FastAPI, MySQL

- Developed a full-stack Employee Management System with role-based dashboards for admins and employees using React, Python (FastAPI), and MySQL.
- Implemented JWT authentication, secure password hashing, login lockout protection, employee account management, and task assignment workflows.
- Built RESTful APIs with FastAPI and SQLAlchemy to manage employees, salaries, task tracking, and real-time status updates.
- Designed a responsive UI with Tailwind CSS enabling admins to manage workforce operations and employees to track assigned tasks efficiently.

Certifications

Master in Data Analysis & Analytics

Dec 2025

Data Analytics with Python

Apr 2025

Introduction to Machine Learning (IIT Kharagpur)

Sep 2023

Programming Logic Building (PLB)

Apr 2022
